Work History

Criteo, NYC, 2013-2014 - Interactive Developer and Designer

Design and development of online advertisements. Worked closely with designers to develop pixel perfect display ads. Worked with R&D to prototype and develop the next generation of multi-platform, touch specific ad formats.

ExpandTheRoom, NYC, 2012-2013 - Interactive Developer and User Experience Designer

Worked independently and with teams to design and develop outstanding digital products. Front end development work for Rolling Stone, US Magazine, Jim Beam, Scholastic. User experience work for MAGNA Global, New York Harbor School, and more.

Freelance, 2007-2013

Freelance work as an interaction designer, graphic designer, and web developer. Independent study of latest design trends, development methods and technologies.

WFTV, Orlando, 2004-2007 - Production Assistant and Graphic Designer

Worked as a studio production assistant at a top 20 market ABC affiliate. Duties included operation of studio cameras, teleprompter and floor directing during fast paced live newscasts. Worked as a graphic designer creating key-framed graphics and assisting meteorologists in the creation of on-air graphics packages.
